

Like many games, Command Decision's order system looks better with larger scales (i.e. 15mm & above). These are designed particularly for microarmor. ABOVE- adhere via full-sheet adhesive label to magnet sheet for "orders"... BELOW adhere via full sheet label to thin cardboard/plastic for "cap"

120 Orders for CDtob (5.5x8.25") print on self-adhesive full-sheet label, stick top half on magnet sheet, cut into 1/2" squares. Disks that denote order chosen are 1/8" (or larger) disks punched out with a paper punch from "steel paper" available from: www.magneticdisplays.co.uk The disk adheres to magnet sheet (the attraction facing up). The "cap" (lower half) can be can be stuck to thin cardboard or plastic sheet and cut to 1/2" squares. We use spray-paint the opposite side a different color like brown & "flip over" when converting Hasty Advance to Entrenchment or Travel March (advanced rules). This PDF (& explanation chart) found at www.g-design.us/cd or www.game.fan.org~bill Updated 7/23/06 6:22 PM
